RE: HEARING SCREENING

At the recommendation of the American Academy of Pediatrics, our office is recommending a hearing screening for children 3 years and older. It is a five-minute test using a small probe containing a sensitive microphone placed in the ear canal to check for hearing loss.

This service is not covered under your health care plan, therefore will not be billed to your insurance company.

The hearing screening is offered in addition to the physical examination at a cost of \$20.00 to be paid prior to the exam.

PLEASE CHOOSE ONE OPTION:

- ☐ YES – I agree with the terms and agree to have the hearing screening performed on my child.
- ☐ NO – I have read the above and do not want the hearing screening performed on my child.
